## Message from Secretary's desk.....

I deem it my pleasure and privilege to extend a warm and affectionate welcome to you into the 30<sup>th</sup> Issue of our College Newsletter. I am sure, that, this College will be stepping stone for you to scale new heights in academic and research programmes.. This 30<sup>th</sup> issue is not only a way for us to get campus news, info, and inspirational stories out to you in a more timely manner than ever before but also to amplify and support the groundbreaking work of our faculty and students. Now, together, we have the honour—and the responsibility—of leading this institute with the audacious goal of scoring high accreditation from NAAC. Together with our impressive faculty and staff we are leading vitally important work and I am proud to be a part of this committed community of scholars and faculty. At the outset I send my greetings to the Editorial Board, for working on Newsletter best in all aspects. We want to provide a complete package of educational services to our students. I believe this Newsletter will provide us the benchmark for continued improvement in overall development of the College. This Newsletter should be a good source of guidance for faculty and coming batches of students in choosing activities of their choice in their future for building their careers. I appreciate the efforts of the Editorial team who have done an excellent job in compiling our institution's activities over the half year and disseminate them through this Newsletter as well as on the college website.

Wishing you all the best....!

**L.M. Muneer Ahmed**

## Message from Principal's desk....

Keeping in mind that today life is an epitome of competition, Islamiah College takes care to inculcate professionalism among the students while shaping and sharpening their mindsets. We foster due emphasis on exposing our students to real-life situations of the corporate world and enriching them with life turning experiences to become self-reliant. I am quite pleased to learn about the forthcoming issue of the college Newsletter. No doubt this creative endeavor will bring out an array of artistic and scientific expressions with distinct individual signatures. I do appreciate and applaud the editorial team for their successful completion of this tedious yet daunting task of putting together the myriad thoughts and dreams of our students and faculty into a meaningful and delightful visual fest called 'Newsletter'. I appreciate every student who shared the joy of participation in co-curricular and extracurricular activities along with their commitment to curriculum. That little extra we do, is the icing on the cake. The evolution of the institute over the past couple of years has witnessed strong blend of state-of-the-art infrastructure and intricately intertwined human resource committed to provide professional education with thrust on creativity and innovation. May all our students soar high in uncharted skies and bring glory to the world and their profession with the wings of education!

"We believe in making our students job providers and not the job seeker"

**Dr. T. Mohamed Ilyas**

## Editor's Note.....

Mid-way through editing and designing a pile of activities which I was nose deep in and with the thoughts of the zillion things that 'JUST HAD TO BE DONE'.

Although the newsletter format is limited in the amount of in-depth information it can provide, we will make every effort to describe, if only briefly, our latest achievements in academic and non-academic activities held in our institution. This Newsletter is a plat-form that exhibits the academic skills and innovative ideas of teachers and students. I would like to thank all my editorial team members for helping me pull this through. I express my considerable appreciation to all the staff and students who have contributed to bring up this edition. These contributions have required a generous amount of time and effort. It is this willingness to share knowledge, concerns and special insights with fellow beings that has made this Newsletter possible.

Any criticism, opinions, and encouragement will be highly appreciated by the editors of the Newsletter.

**Dr. H. Abdul Jaffar Ali**

## What is new?

### Student Exchange Programme - (SEP)

*A student exchange program is the best way not only to become proficient in wide spectrum of knowledge but also to share the heritages and customs. Students get exposure to alternative ways of learning and personal development through SEP.*

With this in context, a Memorandum of Understanding was signed between our college and Sallamusallam Science College, Areekode, Kerala for SEP. A batch of 10 students of Sallamusallam Science College, belonging to different disciplines visited our college along with a staff member, Mr. Shafeer, Asst. Prof of English from 29.10.2019 to 03.11.2019. The students were given lectures on various topics by selected faculty members of our college. In one session, the college Secretary and correspondent Janab. L. M. Muneer addressed the students and shared information about the History of the College and Vaniyambadi Muslim Educational Society. The students were taken to Yelagiri Hill station and also to the Vainu Bappu Observatory, an astronomical observatory owned and operated by the Indian Institute of Astrophysics, located at Kavalur for a field study.
