## Editor's Note

It is a matter of pride as well as pleasure to present before our readers, the 26<sup>th</sup> issue of College Newsletter. I feel honoured for the faith reposed in me for continuing the role of editor of College Newsletter. A college Newsletter mirrors the success story of an institution and acts as a great medium to reach out to the outer world. It reflects the persistent and committed efforts made by the stakeholders of the institution for taking the institution one step ahead. It brings to light the names of the unsung heroes and their mighty deeds. We have put whole-hearted endeavours to bestow a complete and kaleidoscopic view of laudable contributions made by all the members of the College. Campus news and events, support service activities and the placement scenario have also been emphasized. This Newsletter stands as a witness to the monumental efforts taken by the management to make the college a centre of excellence in education and research. It stands awed by the sheer number of activities that have come pouring in for the Newsletter. This shows the positive and creative energy of faculty members and students in the college. I would like to place on record our gratitude and heartfelt thanks to all those who have contributed to make this effort a success. I profusely thank the management for giving support and encouragement and a free hand in this endeavor. We truly hope that the pages that follow will make an interesting read. I am glad to acknowledge the kind support that I have received directly and indirectly, to bring out the Newsletter on time.

Dr. H. Abdul Jaffar Ali

## Principal's Message

The 26<sup>th</sup> edition of the Newsletter speaks volumes of our achievements and challenges confronting to our institution. Like every newsletter, this also celebrates our successful voyage on education as minority managed autonomous college. We are successful in our autonomy and forging ahead to improve the quality of teaching, learning and research through microscopic introspection of our own activities. One of our academic successes during this year is the publication of books by our faculty members. My attempt on this is issue began in the year 2011 with a publication of two books and now it has raised to 25 in number. During my tenure as Principal the entire process of admission to examination were automated and digitalized satisfying the concept of Digital India. Departments of Library Science and Physical Education were given equal importance as any other academic Departments and they proved their worth by the way of the achievements. All our academic Departments are raised to a level to compete with national institutes. I hope this is my last message to readers, before I retire from service, with an appeal to continue to support our entire endeavor in the process of education. Dear readers, we have the mission to reach our aim and objectives through academic activities like NAAC reaccreditation, National level ranking and College for Potential of Excellence in forthcoming years. All these challenges will be achieved only through unity, sincerity and hard work with open mindedness. I strongly believe that all our stakeholders of this century old institution is endowed and bestowed with these qualities. I hope this newsletter portrays all our achievements and acclaimed activities. I pray Almighty to provide power and patience to succeed our new goals in the future years.

## Secretary's Message

I feel happy to present the 26<sup>th</sup> edition of our College Newsletter, the third printed matter released in my tenure as the Secretary and Correspondent from 1<sup>st</sup> June 2016. This newsletter is a showcase of our academic, research and social activities that not only justifies our reaccreditation with 'A' grade but also validates the grant of autonomy. My Alma mater has completed its first cycle of autonomy successfully and been granted extension status during my period which is a pride to me and to the VME society. I feel honored to guide this college for achieving another milestone during its hundred years of history. I appeal to all stakeholders to work hard to get A<sup>++</sup> during the NAAC reaccreditation process scheduled next year and simultaneously we have to apply for NIRF to reserve our place in the national level. I am very grateful to all those who worked directly and indirectly for the autonomy review process. I take this opportunity to call upon all our teaching and non-teaching staff to regroup to impress upon the members of the NAAC peer team. I hope everyone will find this news letter exciting and interesting.
