CURRICULUM DESIGN

Curriculum design is the most important aspect of all educational institutions. All the departments of our college have designed their curriculum by keeping in mind the modern day advancement, technological changes, changing needs of the society and industry as well as providing employment opportunities to the students. The autonomy status of this college has given free hand to design our own curriculum to fulfill the above requirements and thereby enabling us to produce graduates with outstanding skills, required technical knowledge and dynamic leadership qualities to face the competition successfully.

In B.Com, the new papers such as 'Services Marketing, Commerce Practicals' have been introduced. In M.Com, Entrepreneurship Development and E-Commerce papers have been introduced.

In B.Com (C.A), the new topics like demonetization, wallets and online banking are included in the syllabus.

In B.Com (F&A), the curriculum design concentrates on training the students in the field of financial services, accounting and auditing.

In BBA, the most wanted subjects like 'Advertisement and Salesmanship' and 'Marketing Research' have been introduced.

In B.A (History), the papers "Fundamentals of Indian Geography and Constitution of India" have been introduced.

In B. Sc (Mathematics), the papers titled 'Fuzzy Set Theory, SPSS, Web Designing' have been introduced in the curriculum.

In both the under graduate and post graduate courses of Chemistry, practical skills are imparted by introducing semester wise practical examinations. Industry

oriented topics have become the part of syllabus. Modern teaching methods through multimedia classes are being adopted.

In Biochemistry course, 'Medical Laboratory Technology and Human Anatomy and Physiology' papers have been introduced at under graduation level. In post graduation, 'Pharmacology and Toxicology' and 'Ecology and Evolution' have been introduced.

In Biotechnology, the papers like 'Environmental Biotechnology', 'Endocrine Technology' and 'Immunology' have been introduced. In M.Sc. Biotechnology, the optional subjects such as 'Animal Cell Science and Technology and Nano Chemistry have been introduced.

In Tamil, 'Science and Computer Tamil' has been introduced to the II Year UG Students as a Non Major Paper.

'An Introduction to American Culture' is the paper newly introduced by the Department of English. An objective type book for value education has also been published.

The department of Hindi has introduced 'Basic Hindi' for non Hindi students in the III and IV semesters.

INTER DISCIPLINARY PROGRAMMES

The Commerce department conducts the Inter disciplinary programmes like 'E-Commerce and Footwear technology' to the students of all disciplines.

BBA department continues to offer Management subjects dealing with Management Concepts and Training and Development of Employees to the students of other departments.

The Physics department and Chemistry department collaboratively conducted seminar program to motivate the students towards interdisciplinary research activity.

The Computer Science department offers 'Mat Lab and Enterprises Resource Planning' as interdisciplinary program.

The Department of Chemistry motivates other department faculties like Bio-Chemistry and Physics to do inter disciplinary research.

Biochemistry department has introduced a certificate course in Mushroom Cultivation for all UG students.

EXAMINATION REFORMS

Direct Entry of Internal Assessment Marks in the computers through intranet facility is implemented. This method is error free and has saved time and stationery.

OMR based examinations for Environmental Studies and Value Education Courses has been introduced.

Question papers for the end semester Practical Examinations have been arranged and supplied by the Office of the Controller of Examinations.

COE office calendar is included in the College calendar.

Computerized seating plan for autonomous examination is to be implemented from April 2017 end semester examination.

BEST PRACTICES OF THE DEPARTMENTS

The department of Commerce maintains the Departmental library containing books of 195 titles. These books are being lent for the poor students to prepare for examinations as well as for instant references. The department conducts Induction programme for the freshers. ICT enabled classes are being taken to make students understand the concepts with ease by using power point presentations and videos.

All departments conduct regular parent-teacher meeting to appraise the performance of the individual students. B.Com (FA) department encourages their students to learn computer technology by using laptops.

The department of History offers counseling to the students regarding filling up of applications for competitive examinations and for preparations.

The department of Mathematics is guiding the students to appear for competitive examinations conducted by UPSC, TNPSC, UGC, CSIR etc. It also conducts remedial classes for the slow learners.

In the Physics department, a corpus fund has been created from contributions of the department staff members to help the deserving poor students.

The department of Computer Science sends SMS alerts to the parents of the students about their attendance. It provides internet facility for students' during leisure hours.

The Chemistry department students are encouraged to involve the activities of the forum, Rural Society for the Advancement of Chemistry, (RUSAC). The PG students are given first hand information and training to operate the sophisticated instruments in the laboratories, FIST I and FIST II.

The Biochemistry department utilizes the funds obtained from the alumni for the purchase of chemicals, kits etc. This department also plays the video lectures of the eminent persons during the leisure hours.

STUDENT ATTENDANCE

A minimum of 75% attendance is required to appear for both theory and practical examinations. The students with 65-74% of attendance are listed under shortage of attendance and they need to pay condonation fee to become eligible to write the examinations. The students who have 55-64% are detained and those with less than 55% have to redo the course.

Nearly 85% of the students have attendance over 75%. Almost all the remaining students pay the condonation fee and write the examination.

RESULT ANALYSIS

The overall results of the students in all the departments are fairly good. However, the papers which need to be concentrated are mentioned here.
