Report of the Historical Field Visit on

01-04-2022 & 02-04-2022 for M.A. History Students

Fifteen M. A. History students of our department along with the staff members Dr. K. Murugan, Mr. P. Basith Assarani and Dr. Mohammed Osman Pasha, Assistant Professors of History visited the Archaeological sites at Keeladi and visited the historical places at Pudukottai, Tanjore and Tiruchirappalli as per the schedule. The students and staff members assembled in our college campus and started their journey on 31st March, 2022 by 08:30.P.M through a 20-seater van. Our Principal, Dr. T. Mohamed Ilyas, supervised and inspected the necessary arrangements for a trip and advised our students about the precautionary measures and discipline students should follow in the tourist places and he insisted on the importance of the field visit as a part of the education before sending off our students. We started our journey from our campus and reached Madurai by next day morning on 01st of April, 2022, after visiting the Madurai local. We reached keeladi excavation spot by the same day evening.

(Our beloved Principal Dr. T. Mohamed Ilyas, supervising the preparation of the Journey)

ISLAMIAH COLLEGE (AUTONOMOUS)
VANIYAMBADI - 2.

(Our beloved Principal, Dr. T. Mohamed Ilyas, Dr. Syed Tahir Hussainy with our students)

Day-I (01-04-2022) - KEELADI

The group of 15 students along with 03 staff members visited 2200 years old Archaeological excavation site at Keeladi. Our students witnessed the four excavation trenches of the seventh phase of the excavation site at Keeladi. The unclosed archaeological pit unveiled the knowledge of our students practically apart from the books and classroom teaching. The students learned about the excavation procedures, measurements and the procedure for digging out the remains without any disturbance of its original form. Our students got a chance to visit the displayed remains of the eighth excavation trench. The variety of redware remains of pottery sherds are displayed from the abovesaid eighth excavation site.

(Our students nearby the excavation trenches)

(From Left to Right: Dr. Mohammed Osman Pasha & Dr. K. Murugan and students examining the excavation trenches at seventh phase of Keeladi excavation trenches)

After visiting the excavation trenches at Keeladi the students and staff members are stayed at Madurai to continue their journey for next day morning.

Day-II (01-04-2022)

FIRST VISIT - CITHANNAVASAL

The second day historical field trip was started with visiting Art Gallery in Rock-cut Jain temple at Chithannavasal nearby Pudukottai on the way to Tanjore by morning.

Our students with the responsible staff members visited the Art Gallery at Rock-cut Jana temple called as Arivar-Kovil belong to the Pandya Kings Maran Sendan and Arikesari Maravarman whose reign from 7th to 8th centuries. The students enjoyed visiting the famous historical fresco paintings, samanar padukkai, stone carvings at roof, pillars, pilasters, sanctum, sitting posture of 24th Tirthankara's statue, brightest colorful murals on the upper parts of the cave etc., The students enjoyed the trip and got an additional practical information about the particular historical site in Chithannavasl.

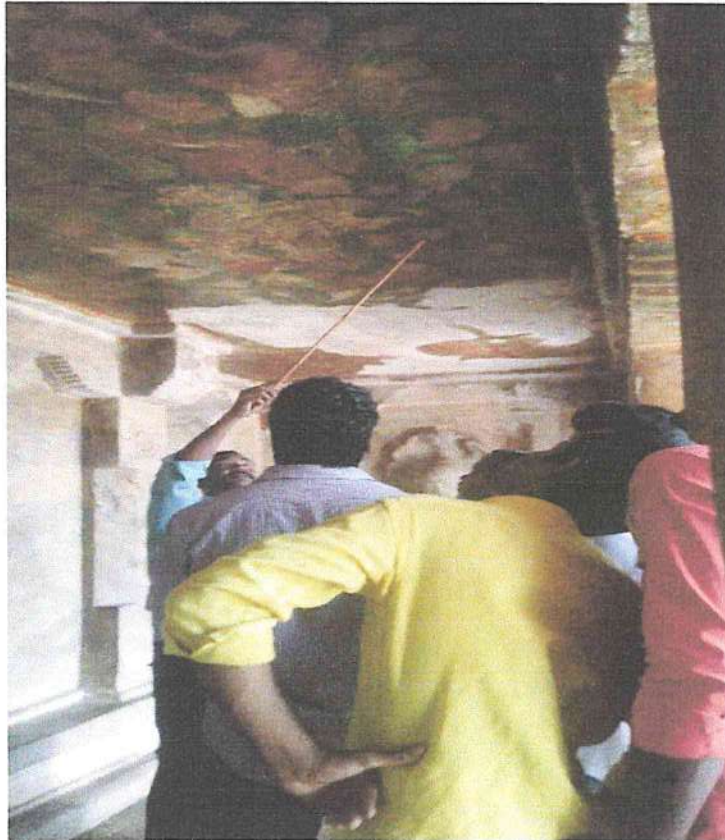

(Our Students & Staff Members at in front of the Rock Cut Jain Temple at Sithannavasal, Pudukottai District)

(Our Students with staff members sitting in front of the Art Gallery at Chithannavasl)

VANIYAMBADI - 2.

(Our Students witnessing the Murals at Chithannavasal)

After visiting Chithannavasal our educational tourist group moved towards Tanjore Periya kovil.

Day-II (01-04-2022)

SECOND VISIT – TANJORE PERIYA KOVIL (or) BRIHADEESWARAR TEMPLE

We reached Tanjore Periya Kovil by the same day approximately 11:00. A.M. The students enjoyed visiting the Architectural splendor of the Cholas and studied the techniques used to construct the temple walls and the Gopura. Our students visited and astonished about the grand structures of Nandhi, Sculptures erected by Raja Raja Chola thousand years before. The students witnessed the astonishing fact about the 25 tonnes weighed single granite stone. The students learned about the Dravidian style of Architecture splendor and knew the differences between style of Architecture followed in south and north during medieval Tamilagam.

We departed from Tanjore after lunch and reached Kallanai at Truchrappalli by evening.

(Our Students along with staff members at in front of the Tanjore Brihadeeswarar Temple)

(Our students at inside of the Tanjore Brahadeeswarar Temple)

SECOND AND FINAL VISIT – KALLANAI DAM (or) GRAND ANICUT

Our educational tourists reached Kallanai, a Grand Ancut at Truchirappalli approximately by 04:00. P.M. The students witnessed the Ancient Dam constructed by the early Chola King Karikalan between 100A.D to 150.A.D. The students learned about the engineering wonder of the Ancient Tamil peoples through this field visit. This field visit witnessed our students to knew about the importance gave by our Tamil rulers to irrigation on

Sir,

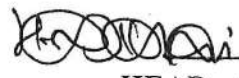

Sub: Department of Biotechnology, Islamiah College (Autonomous) – Internship program. Requisition to provide **Internship** on “**Effluent Treatment**” for III B.Sc. Biotechnology Students – Reg.

We express our sincere thanks to you for having given Internship Training on Effluent Treatment in your plant to our students of 2018-2021 batch during Dec to Jan 2020.

We have planned to send 48 students of III B.Sc. Biotechnology of 2019-2022 batch for Internship Training in your Effluent Treatment Plant for 10 days from 21-12-2021 to 31-12-2021. We request you kindly to accommodate and provide Intensive training and do the needful. Herewith we have enclosed Bonafide List of Students.

Thanking You

Yours faithfully

10 DAYS INTERNSHIP PROGRAMME AT VANITECH, VANIYAMBADI

INTRODUCTION

Department of Biotechnology, Islamiah College (Autonomous), Vaniyambadi deputed 48 students of III B.Sc. Biotechnology to ten days Internship Programme to VANITECH, Pvt. Ltd. which is located in Valayambattu. The Internship programme was organized with prior permission and guidance of our Principal and Management. The team members of the company performing an excellent service in converting Effluent to Affluent. The process of purifying effluent waste waters from tanneries located in and around Vaniyambadi is done here. The team members of the company are industrious in purifying the water. Let's have a detail view about the process and experience in upcoming leaf. The peasants who are working near sludges are supportive souls for our region. By the sweat of the worker's brow, we are leading a healthy life. They are the real heroes and inspiration for upcoming generations.

DETAILS OF OUR JOURNEY - DAY 1

On the first day, all the students along with Dr. H. Abdul Jaffar Ali, HoD of Biotechnology and Dr. N.P.M. Mohamed Tariq and Dr. M. A. Farook (Mentor) reached the Vanitech Pvt Ltd at 10.00am and we were received by Mr. Nazeer, Manager, Vanitech Pvt Ltd. The Internship programme was inaugurated by Mr. Nazeer, in the presence of Dr. H. Abdul Jaffar Ali, Dr. N.P.M. Mohamed Tariq and Dr. M. A. Farook in the meeting hall of Vanitech. After a formal prayer and welcome address, Mr. Nazeer started his presentation with introduction and motivational quotes. He explained the overall picture of tannery effluent treatment in his power point presentation. He delivered information about the stages of passing water and usage of chemicals. He explained four different stages of treatment such as Physical method, Chemical method, Biological method and Mechanical method.

DAY 2

On the second day, well-knowledged and experienced staff of Vanitech had interaction with the Students. The students were taken to a huge tank with the capacity of 40 lakh liters known as ETP plant. The students were explained ETP (Effluent Treatment Plant) process design for treating the industrial waste water for its reuse or safe disposal to the environment. Agitators present in many sizes and varieties, depending on the application were shown to them. In this session, they came to know about ETP plant and how it is monitored.

DAY 3

On the third day, the structure and features of huge and modified tanks are explained. It is followed by the process of Physical method where, the divider in tank to separate the water was also explained.

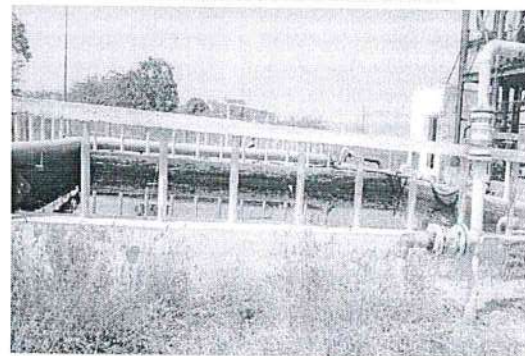

DAY 4

On the fourth day, the usages of chemicals Aluminium Sulphate and Aluminium Chloride were explained. Pouring the chemicals in pipeline, use of rotator fixed in the center of the tank and the use of 0.03 microns of filters were explained.

DAY 5

On the fifth day, use of aeration tank after the process of chemical method was taught. At this point, O_2 is made to flow continuously at concentrated level. Various pipelines at the bottom of the tank connected for the flow of O_2 gas and chemical reactions takes place were also shown and explained.

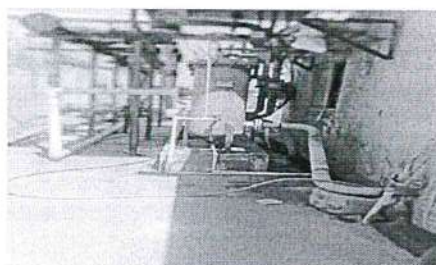

DAY 6

On the sixth day, collection of water in small tank was explained. Through the pipeline the water passes to the big microns RO (Reverse osmosis) section at a particular force and filtered. Reaching of water to 0.001 microns sized filter paper chamber through biological process was shown.

DAY 7

On the seventh day, they had a look at all motors present in Chemical method, Physical method, Biological method and Mechanical method. Motor is used for the continuous supply of oxygen in circular motion. The connections of pipes are laid in underground. These machines work for 24 hrs. The machines are not stopped. It works whole day. So this is a restless process.

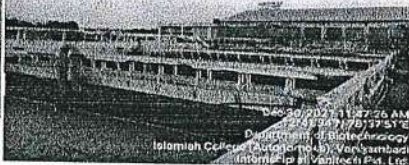

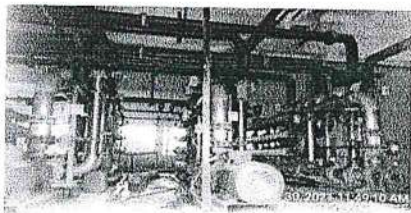

DAY 8

On the eighth day, they learnt important biological process. They also learnt the minute filters placed at the 0.001 microns size, Nano technology used here, use of Chlorine to spoil a filter. So (SNPS) chemicals are used to settle down chlorine at the bottom using motor, the water passes through the filter and continuous flow of O₂ is passed. The students understood the use of Nitrosomonas bacteria to degrade the waste particles. Finally they observed that 75% of water as purified.

DAY 9

On the ninth day, they learnt mechanical method of treatment. They learnt about the processing of 25% of unpurified water by mechanical method. Use of Cooling tower, steam bath and centrifuge were explained. They observed the purified water from that 25% of remaining waste.

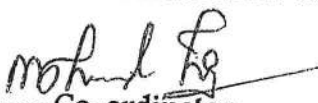

DAY 10

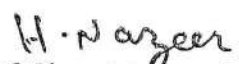

On the tenth day, dumping of waste was explained. They were explained proper disposal of final waste at the back side of the company. In this end of the day, Dr. H. Abdul Jaffar Ali, HoD of Biotechnology and Dr. N.P.M. Mohamed Tariq concluded the programme by proposing formal Vote of Thanks to the Vanitech Office bearers. The Vanitech Manager distributed the certificates to the Students.

CONCLUSION

Internship programme was successfully organized with the support and encouragement of the Management and the Principal. The programme accomplished by the Co-operation of Staff members and the Students. The internship brought positive change in thinking and bioremediation of effluent to the Students. Students experienced good friendly bondage among themselves. The Internship completion certificates would be much useful for the future career.

Report on

FIELD VISIT TO SERICULTURE FARM

(MR. VENKOBA RAO FARM)

ALANGAYAM

Organized by

PG & RESEARCH
DEPARTMENT OF BIOTECHNOLOGY

05.03.2022

Dr. M.A. Farook

Co-ordinator

Assistant Professor

Department of Biotechnology

PRINCIPAL
ISLAMIAH COLLEGE (AUTONOMOUS)
VANIYAMBADI - 2.

Background of the Field visit

PG and Research Department of Biotechnology aims to endow the students with extraordinary skills of life making them not just job seekers but job creators. We equip our students with experiential learning by taking them to various field visits to get in sighted into the applications of Biotechnology every year.

As a part of their curriculum, this year our II B.Sc. Chemistry and Biochemistry students were taken in to Sericulture farm for enhancing their experiential learning in the domain of sericulture in the presence of the Head of the Department and staff members.

Executive summary of the visit

SoP for Covid 19 pandemic laid down by the Government of Tamilnadu was strictly followed during the visit. There were 51 students accompanied by Dr. H. Abdul Jaffar Ali, Head, Department of Biotechnology and Two staff members Dr. M.A. Farook and Mr. S. Zakirullah, Assistant Professors of Biotechnology. Students assembled at the College Entrance at 2.00 pm on 05.03.2022 and proceeded Mr. Venkoba Rao farm, Alangayam by 2.30 pm.

On our arrival at Sericulture Farm Mr. Venkoba Rao warmly welcomed us. He had taken time off his busy schedule he welcomed us.

The students and staff members visited Sericulture farm. All the students were taken to two important divisions of the Sericulture – Bombyx mori rearing shed and Mulberry plant cultivation field.

Mulberry plant cultivation field

V1 and S36 are the high yielding mulberry varieties which are highly suitable for silkworm rearing. These two varieties produce nutritive leaf, which is essential for good growth of silkworm larvae are cultivated by Mr. Venkoba Rao.

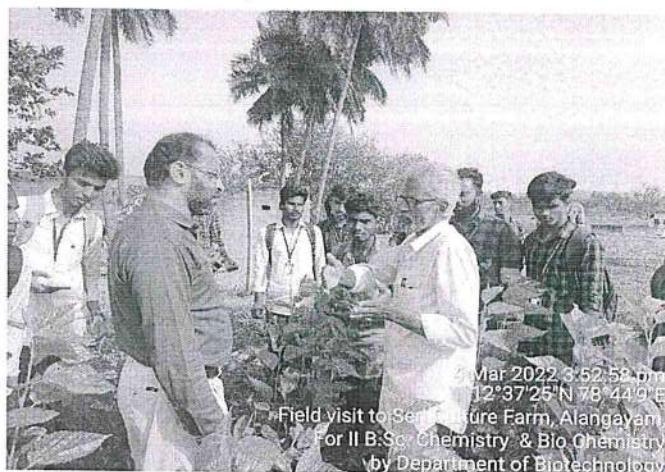

S-36

- The leaves are heart shaped thick and light green with glowing nature.
- The leaves have high moisture and more nutrient content.

- About 15,000 to 18,000 Kg of mulberry leaf per year from one acre.

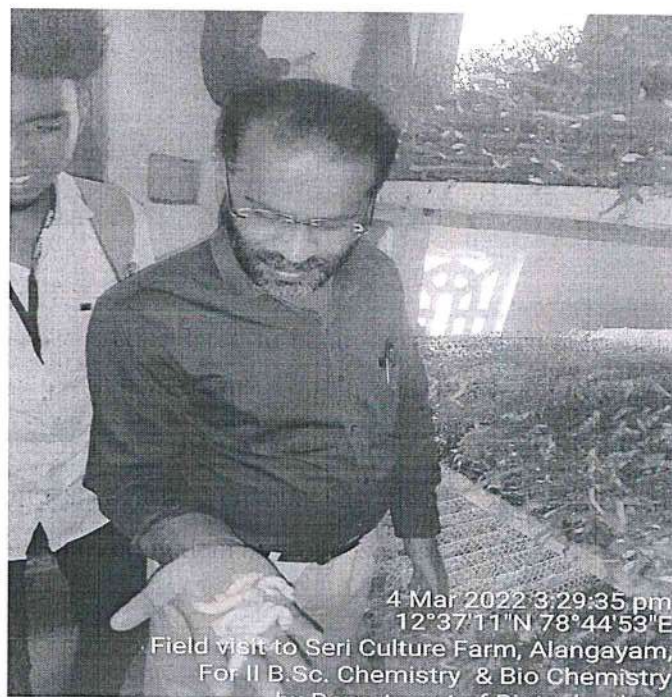

V-1

- This variety was released during 1997 and very popular in the field.
- The leaves are oval, broad in shape, thick, succulent and dark green
- About 20,000 to 24,000 Kg of mulberry leaf yield can be obtained in a year.

Bombyx mori rearing shed

Silkworm Rearing is considered to be an agro based cottage industry since it involves mulberry cultivation. It is ideally suited for the rural areas. Silkworms are reared for the production of "cocoons" which is the raw material for silk production. Silkworms are reared in well ventilated rearing shed. Mr. Venkoba Rao clearly explains the rearing of silkworms, cocoons formation and marketing demands of cocoons.

Finally Mr. Venkoba Rao clearly explained the importance and opportunities of Sericulture and he said that the students will be able to start sericulture practice in their own land. Mr. Venkoba Rao congratulated our Department of Biotechnology for its sincere efforts to providing experiential exposure to the students of Biochemistry and Chemistry. At the end of the Visit we reached our College at 6.00 pm. We express our sincere thanks to the management and particularly respected secretary and correspondent Janab L.M. Muneer Ahmed and respected Principal Dr. T. Mohamed Ilyas for their unflinching support and constant encouragement.

Dear Sir,

We hereby acknowledge that 44 student of 'E-commerce and Footwear Technology' along with two faculty Prof S. Aslam Basha & Mr. Niyaz Ahmed of your esteemed institution was visited our factory on 05.01.2022. They visited various department in our factory and had keenly observed leather & shoe manufacturing process. During their visit, the student enthusiastically interacted with our staff and their behavior and conduct was good.

Thanking You

Yours faithfully,

For N.M.Zackriah & Co.

Mohib Shoes Pvt. Ltd.,
'B' - UNIT

Mfrs. of Finished Leathers, Uppers & Full Shoes

08-03-2022

To

The Principal,

Islamiah College (Autonomous)

Vaniyambadi.

Dear Sir,

We hereby acknowledge that 44 students of "E-Commerce and footwear technology" students along with two faculty Mr. S. Aslam Basha & Mr. Niyaz Ahmed from your esteem institution was visited our establishment on 02.03.2022 & 03.03.2022.

They visited various department in our establishment and had keenly observed Leather & Full Shoe Manufacturing process. During their visits the students enthusiastically interacted with our Staff and their behavior and conduct was good.

Thanking You,

For Mohib shoes Pvt. Ltd., B – Unit,

Manager
