Date: 12 April 2022

Mr Cholavaram Anas Sameed
432/A Dokku Street
Muslimpur
Vaniyambadi 635751 [Tamil Nadu]

Dear Mr Sameed,

This has reference to your application LFS2472 for an IASc-INSa-NASi Summer Research Fellowship in 2022. We are happy to offer you a Fellowship to work for two months during this summer subject to verification of your marks as stated by you in the application with the marks sheets. You will be working with Dr M.G. Sanal, Institute of Liver and Biliary Sciences, New Delhi (e-mail: sanalmg@gmail.com).

We have tried as far as practicable to assign you to a guide who works in your area of interest. Where that has not been possible, you will work with the assigned guide in a related area that will be determined by the guide and trust that the experience will be fruitful to you. We will not be able to make any change in this regard.

This Fellowship is subject to the following norms:

- The duration of the Fellowship is eight weeks (56 days – including Sundays and General Holidays), and is not to be reduced. If you do not complete this requirement, you will not be paid the fellowship amount and the certificate that is usually issued on completion.
- You will be provided a III-tier A/c train fare from Vaniyambadi to ILBS, New Delhi and back.
- If you are NOT an INSPIRE/KVPY Fellowship holder, you will be paid a Fellowship of 12,500/- per month towards your boarding, lodging, local transport expenses*. Those who are in receipt of INSPIRE/KVPY Fellowship will be covered by a separate arrangement, the details of which will be sent later.
- For local accommodation, please contact your guide who can help you. The Academy office will not be able to help you in this regard.

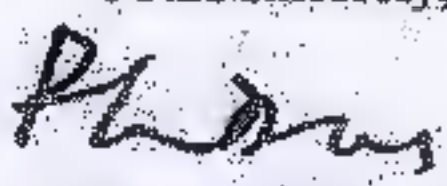

Please also go through carefully & comply with all the Instructions given in the attached sheet.

You are advised to get in touch with Dr Sanal immediately to work out the exact period of your visit. In the meantime please communicate with Mr C.S. Ravi Kumar, Coordinator, Science Education Program, your acceptance of this Fellowship. We would need a joining report from you upon your arrival, and a brief report of your work at the end of four weeks so that your Fellowship for the first month can be paid. After the receipt of the final report, we shall release the remaining amount due to you along with your travel fare.

We urge you to convey your acceptance of this fellowship within 7 days by both online (the userid and password given at the bottom of the email) as well as by returning the Form of Acceptance posted to you. Even if you are not able to accept the fellowship, this should be communicated to the Academy immediately (both by email and in the Form of Acceptance email: sumfel@ias.ac.in) so that the fellowship can be offered to another candidate in the waiting list.

With best wishes,

PRINCIPAL
ISLAMIAH COLLEGE (AUTONOMOUS)
VANIYAMBADI - 2.

Yours sincerely,

Professor P K Das
Chair, Joint Science Education Panel, IASc

* It is recommended that each Summer Research Fellow (SRF) be covered by a personal health/accident insurance policy during the period of summer-training. The Academies will not provide any insurance cover. Therefore, the responsibility for purchase of insurance rests with you.

Summer Research Fellowship Programme Certificate

This is to certify that Mr Cholvaram Anas Sameed worked on a project entitled "Testing the performance of a commercial β -actin antibody on various mice liver tissue samples using immunohistochemistry" during July - August 2022 as a Summer Research Fellow under the supervision of Dr M.G. Sanal, Institute of Liver and Biliary Sciences, New Delhi. The Summer Research Fellowship Program is jointly sponsored by IASc (Bengaluru), INSA (New Delhi) and NASI (Prayagraj).

*Place: Bengaluru
Date: 02-12-2022*

Sub: Permission – M.Sc./B.Tech./M.Tech./M.Phil students –Project work at NRC for Banana, Trichy – during December 2021 to April, 2022 – reg.

Sir/Madam,

I wish to inform that the following student(s) of your college/university is/are selected to do their PROJECT at our Research Centre during December 2021 to April, 2022

LIST-7 OF STUDENT(S) SELECTED FOR PROJECT WORK AT ICAR-NRCB, TRICHY DURING DECEMBER TO APRIL, 2022

S.No	Student Name	College/ University	Name of Guide
1	Mr.N.Gokul gokulgokuln28@gmail.com	ISLAMIAH College / Thiruvallur university, Vaniyambadi.	Dr.S.Backiyarani

I wish to inform that the enclosed list of student(s) of your college/university is selected to do their PROJECT at our Research Centre during 2021-22.

The following terms and conditions are to be followed strictly during the course of the project work.

- The Scientist identified at our Centre should be the Project Guide. We have come across many instances where due recognition was not given to our Scientists as Guide and it should be strictly adhered.***
- A certificate from the Director, along with the Scientist/ Guide's signature should be attached in their thesis to indicate that the work was fully carried out at National Research Centre for Banana.***
- Further, two copies of the dissertation should be submitted to our Centre at the time of submission of the project (one for the NRCB-Library and another for the Guide).***
- The students should give an undertaking that he/she will not publish any part of the data/work without prior approval of the Guide at our Centre.***

SUMMARY OF THE COLLABORATION

1. Dr. P. K. Mohamed Imran, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with V. Sriraman & E. Vinoth, Department of Chemistry, Government Arts College, Tiruvannamalai 606603, Tamilnadu and M. Nizam Mohideen, Department of Physics, The New College, Chennai, 600 014, Tamil Nadu, for the research activities and joint publications in computation chemistry for the period of three months from March to May 2021.

Based on the collaboration, computational studies have been carried out and the same was published as research article.

Publication:

Sriraman, V., Vinoth, E., Mohideen, M. N., Imran, P. K. M., & Arun, A. (2022). Synthesis, crystal structure, DFT, docking and biological activity studies of (NZ, N'Z)-3, 3'-(piperazine-1, 4-diyl) bis (N-(-4-methyl benzylidene) propane-1-amine). *Materials Chemistry and Physics*, 275, 125220. <https://doi.org/10.1016/j.matchemphys.2021.125220>

2. Dr. P. K. Mohamed Imran, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with Panneerselvam Devibala, Balu Balambiga, Prof. Samuthira Nagarajan, Organic Electronics Division, Department of Chemistry Central University of Tamil Nadu, Thiruvavur, 610005 India and Dr. Nattamai S. P. ABSTRACT

Biosynthesis of silver nanoparticles (AgNPs) has been performed using various sources including plants and fungi. *Sargassum swartzii* is an alga that has a vast spectrum of biological activities and is predominantly found on the Indian coasts. In this study, AgNPs were biosynthesized using *S. swartzii* and evaluated for its antibacterial potency against *Escherichia coli* (ATCC 25922). The synthesized nanoparticles (NPs) were imaged using TEM analyses and found to be predominantly spherical and crystalline with size around 20–40 nm. The Zeta sizing analysis revealed mean particle size to be 40.4 nm. The XRD analysis revealed the particles are crystalline nature and average size around 54 nm. The biosynthesized AgNPs were used against treating *E. coli* and it was found to cause a considerable amount of deterioration to the microbes when observed under AFM and FE-SEM. The study revealed the significant antibacterial activity of the synthesized AgNPs due to extensive membrane damage.

Eco friendly synthesis and characterization of zinc oxide nanoparticles from *Aegle marmelos* and its cytotoxicity effects on MCF-7 cell lines

<https://doi.org/10.1515/nanofab-2020-0104>

Received May 07, 2021; accepted Nov 19, 2021

Abstract: An attempt was made to synthesize zinc oxide gum white nanoparticles (ZnO-GWNPs) by the greenway approach using *Aegle marmelos* (Bael fruit) juice extract as a capping and reducing agent. Synthesis of ZnO-GWNPs by greener approach is safer, more economical, more energy-efficient, eco-friendlier, and less toxic than chemically synthesized counterparts. The optical properties of the ZnO-GWNPs were ascertained through UV-Vis spectroscopy, Fourier Transform-Infrared (FT-IR), X-ray diffraction (XRD), High-resolution transmittance electron microscopy (HR-TEM). A characteristic absorption peak at 385nm confirmed the presence of ZnO-GWNP using UV-Vis spectroscopy. FTIR spectrum revealed that the characteristic absorption peak of the Zn-O bond was observed at 467 cm⁻¹. The XRD result for the ZnO showed the tendency of the three most intense diffraction peaks. The average crystallite size ZnO NPs at scattering angle (2θ) 22.89 and 32.15 was 39.14 and 26.08 nm and it showed the presence of miller indices of (100), (002), (101), (102) respectively. The EDX spectrum gave strong signals for zinc and oxygen indicating the occurrence of the nanoparticles in their oxide form rather than the pure zinc form. The SEM image showed the surface morphology of ZnO-GW NPs and the HR-TEM image showed the crystalline nature of ZnO-GW NPs. Cytotoxicity study of ZnO-GW NPs was determined against MCF-7 cell lines and the IC50 values were found to be 40 µg/mL and 60 µg/mL at 24 h and 48 h respectively.

Keywords: Greenway; Zinc oxide nanoparticles (ZnO-GW NPs); bael fruit extracts, Cytotoxicity

1 Introduction

Nanotechnology is an immensely developing field in science. It is conducted at the nano-meter scale to explore several disciplines in the field of research, such as physics, chemistry, material science and medicine [1, 2]. Nanoparticles are metal particles in nanoscale (1-99 nm) size and exhibit different structures like spherical, triangular, rod, etc [3, 4]. The main advantage of nanoparticles (NPs) is generally their larger surface to volume ratio when compared with micron-sized particles. Zinc oxide (ZnO) is a Federal Drug Administration (FDA) approved inorganic compound being used in wide range of commercial application such as food, cosmetics, textile and medicine. Zinc nanoparticles (ZnO NP) are widely used in nano optical and nano electrical fields because of their high catalytic activity, and also in food packaging and in medicine as antibacterial and anticancer agents [5, 6].

The production of nanoparticles through biosynthesis may actually produce a better defined size and morphology as compared to other physical and chemical methods of production [7]. *Aegle marmelos* is commonly known as bael belongs to the family Rutaceae. It is native in Indian sub-continent and south East Asia. The whole tree such as root, leaf, trunk, fruit, and seed are used extensively in Indian ayurveda and folk medicine as a traditional medicine to cure various human ailments [8] and diseases and scientific data also validated their therapeutic performance that includes free radical scavenging, antioxidant, inhibition of

Abstract: The chemical content of plant excerpts can be efficiently employed to reduce the metal ions to nanoparticles in the one-pot green production method. Here, green production of silver nanoparticles (AC-AgNPs) is performed by means of *Allium cepa* var. *Aggregatum* (shallot) extract as a stabilizer and reducer. The shape, size, and morphology of resultant AC-AgNPs are examined by optical spectroscopy analysis such as UV for nucleation and coalescence processes of the AC-AgNPs. Through FTIR functional group is determined and through DLS size is defined, it was confirmed that metallic AgNPs were successfully synthesized through the green synthesis route, and these results agreed well with the results obtained in the XRD pattern along with TEM spectroscopy, where the TEM images confirm the formation of sphere-like nanostructures along with SAED analysis. The chemical characterization is performed with XPS; the obtained molecular species in the materials are determined from the energy profile. Antioxidant activity of AC-AgNPs versus DPPH substrate is carried out. Antibacterial activity is well established against Gram-negative and Gram-positive organisms. Cell viability is accomplished, followed by an MTT assay, and a cytotoxicity assay of AC-AgNPs on MCF-7 cell lines is also carried out. **Highlights:** (1). This study highlights the eco-friendly synthesis of silver nanoparticles from *Allium cepa* var. *Aggregatum* Natural Extract. (2). The synthesized AC-AgNPs were characterized by UV-VIS, FT-IR, XRD, TEM, and XPS. (3). The synthesized nanoparticles were well dispersed in nature and the size range of 35 ± 8 nm. (4). The anti-candidal activity of biosynthesized silver nanoparticles was evaluated against the following Gram-Negative organisms: *Escherichia coli* (E. coli), and the following Gram-positive organisms: *Staphylococcus aureus* strains. The biosynthesized AC-AgNPs showed enhanced antiseptic features anti both Gram-positive and negative organisms. (5). Besides, the in vitro cytotoxic outcomes of AC-AgNPs were assessed versus MCF-7 cancerous cells, and the reduction in the feasibility of cancer cells was established via MTT assay, which suggests potential biomedical applications.

Abstract

The present investigation was aimed at exploring the anticorrosive behavior of bio-organic *Auracaria heterophylla* gum exudate (AHGE) on mild steel (MS) corrosion in 1 M phosphoric acid solution by weight loss technique, electrochemical studies, and computational analysis. Additionally, the performance was analyzed by morphological and quantum chemical analyses. The weight loss data revealed that AHGE showed 80% of inhibition efficiency at 303 K temperature. Inhibitor adsorption on MS was in line with Langmuir and Temkin adsorption isotherms. Potentiodynamic studies showed that the investigated AHGE performed as a mixed-type inhibitor. Electrochemical parameters like charge transfer resistance, double-layer capacitance, and inhibition efficiency were determined and presented. Results obtained through computational analysis, scanning electron microscopy/energy dispersive X-ray analysis, and atomic force microscopy studies were well supported by the inhibitive potential of AHGE.

KEYWORDS

acid medium, computational analysis, corrosion, electrochemical studies, mild steel

1 | INTRODUCTION

Corrosion can be popularly pronounced as a deteriorative loss of a metal as a consequence of dissolution due to chemical or electrochemical reactions. Mild steel (MS) is

one of the most familiar metals engaged broadly in a wide range of industries.^[1-3] During a number of industrial procedures, acidic solutions are generally used for the elimination of impurities, rust, and others. However, the main problem of exposing MS in acidic

ICAR-NATIONAL RESEARCH CENTER FOR BANANA

Thogaimalai Road, Thayanur Post, Tiruchirapalli – 620 102

F.No:PMIEC/41(7)/2020-21

Date : 2/2/2021

Subj: Permission –M.Sc./B.Tech./M.Tech Students – Project work at NRC for Banana, Trichy – during 2020-2021 – reg.

Sir/Madam,

I wish to inform that the enclosed list of student(s) of your college/university is selected to do their PROJECT at our Research Centre during 2020-2021.

The following terms and conditions are to be followed strictly during the course of the project work.

- The Scientist identified at our Centre should be the Project Guide. We have come across many instances where due recognition was not given to our Scientists as Guide and it should be strictly adhered.
- A certificate from the Director, along with the Scientist/ Guide's signature should be attached in their thesis to indicate that the work was fully carried out at National Research Centre for Banana.
- Further two copies of the dissertation should be submitted to our Centre at the time of submission of the project (one for the NRCB Library and another for the Guide).
- The students should give an undertaking that he/she will not publish any part of the data/ work without prior approval of the Guide at our Centre.
- Strict discipline should be maintained inside the campus during the period.
- Students are advised not to bring any costly items. The research centre is not responsible for any loss of personal valuable belongings, if any.
- The students should bear the cost of breakage of the glass wares.
- The students should strictly adhere the office timings. (9.30 AM to 4.30 PM)
- The registration fee should be paid in full by online through our website.

- After the payment of registration fee, the students shall meet the concerned guide with online-payment reference number and get the Topic of the dissertation/ thesis from the guide. The Topic will be decided by the guide.

The fee structure is as follows:

Course	Fee	Duration
M.Sc. / B.Tech. / M.Tech.	Rs.15,000/-	upto 6 months

If the terms and conditions are acceptable, the letter may be acknowledged to the undersigned. Student(s) are hereby requested to pay the fees by **ONLINE** through the website (<http://nrcb.res.in/>) in order to confirm their registration and meet the concerned guide for confirmation and further necessary action.

Yours sincerely,

J. Poorani

(J. Poorani)

ISLAMIAH COLLEGE (AUTONOMOUS), VANIYAMBADI-2

SUMMARY OF THE COLLABORATION

1. Dr. M. Aboobucker Sithique, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with Rajakkani Paulpandiyan, Research Department of Chemistry, VHNSN College, Virudhunagar 626 001, India and Sivashanmugam Pugalmani, School of Mechanical Engineering, Tsinghua University, Haidian (Dt), Beijing 100084, China, for the research activities and joint publications in material chemistry for the period of three months from January to March 2020.

Based on the collaboration, material research work has been carried out and the same was published as research article.

Publication:

Manimohan, M., Paulpandiyan, R., Pugalmani, S., & Sithique, M. A. (2020). Biologically active Co (II), Cu (II), Zn (II) centered water soluble novel isoniazid grafted O-carboxymethyl chitosan Schiff base ligand metal complexes: Synthesis, spectral characterisation and DNA nuclease activity. International Journal of Biological Macromolecules, 163, 801-816. <https://doi.org/10.1016/j.ijbiomac.2020.06.278>

2. Dr. M. Aboobucker Sithique, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with Sivashanmugam Pugalmani, Department of Analytical Chemistry, University of Madras, Chennai 600 025, India, for the research activities and joint publications in material chemistry for the period of three months from January to March 2020.

Based on the collaboration, material research work have been carried out and the same was published as research article.

Publication:

Manimohan, M., Pugalmani, S., & Sithique, M. A. (2019). Biologically active novel N, N, O donor tridentate water soluble hydrazide based O-carboxymethyl chitosan Schiff base Cu (II) metal complexes: Synthesis and characterisation. International journal of biological macromolecules, 136, 738-754. <https://doi.org/10.1016/j.ijbiomac.2019.06.115>.

3. Dr. M. Aboobucker Sithique, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with Sivashanmugam Pugalmani, Department of Analytical Chemistry, University of Madras, Chennai, 600 025, India for the research activities and joint publications in material chemistry for the period of three months from November 2019 to January 2020.

Based on the collaboration, material research work have been carried out and the same was published as research article.

Publication:

Manimohan, M., Pugalmani, S., & Sithique, M. A. (2020). Biologically active water soluble novel biopolymer/hydrazide based O-carboxymethyl chitosan schiff bases: synthesis and characterisation. Journal of Inorganic and Organometallic Polymers and Materials, 30, 3658-3676. <https://doi.org/10.1007/s10904-020-01487-9>.

4. Dr. M. Aboobucker Sithique, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with Sivashanmugam Pugalmani, State Key Laboratory of Tribology, Tsinghua University, Beijing, China and K. Ravichandran, Department of Analytical Chemistry, University of Madras, Guindy Campus, Chennai, India for the research activities and joint publications in material chemistry for the period of three months from November 2019 to January 2020.

Based on the collaboration, material research work have been carried out and the same was published as research article.

Publication:

Manimohan, M., Pugalmani, S., Ravichandran, K., & Sithique, M. A. (2020). Synthesis and characterisation of novel Cu (II)-anchored biopolymer complexes as reusable materials for the photocatalytic degradation of methylene blue. RSC advances, 10(31), 18259-18279. <https://doi.org/10.1039/D0RA01724H>.

5. Dr. M. Aboobucker Sithique, Associate Professor, Department of Chemistry, Islamiah College, had a collaboration with S. Pugal Mani, Department of Analytical Chemistry, University of Madras, Chennai – 600 025, India for the research activities and joint

publications in material chemistry for the period of three months from November 2018 to January 2019.

Based on the collaboration, material research work have been carried out and the same was published as research article.

Publication:

Murugaiyan, M., Mani, S. P., & Sithique, M. A. (2019). Zinc (ii) centered biologically active novel N, N, O donor tridentate water-soluble hydrazide-based O-carboxymethyl chitosan Schiff base metal complexes: synthesis and characterisation. New Journal of Chemistry, 43(24), 9540-9554. <https://doi.org/10.1039/C9NJ00670B>.

Mr. J. Mansoor Ahmed, a part-time Research Scholar pursuing his Ph.D. in Commerce under the able guidance of Dr. V. Mahmudul Hasan, Assistant Professor of Commerce, Islamiah College (Autonomous), Vaniyambadi.

The scholar Mr. J Mansoor Ahmed is working on the topic '**Consumer Buying Behaviour in Relation to Online Purchase of Electronic Goods in Vellore District.**'

Dr. K. T. Subhaschandra, Associate Professor of Commerce, Department of Commerce and Management, Government Ramnayarana Chellaram College of Commerce and Management' is collaborating in guiding this Ph.D. Part Time Research Scholar of the Department in the capacity of Co-Guide.

Dr. K. T. Subhaschandra is an expert in the field of Marketing and specialized in 'Consumer Behaviour' having more than three decades of vast experience both in teaching and research, particularly in guiding at M.Phil. and Ph.D. research levels who is found to be very resourceful and fit enough to collaborate with. The candidate frequently consults both the Research Guide and Co-Guide to get valuable inputs in the course of research work.

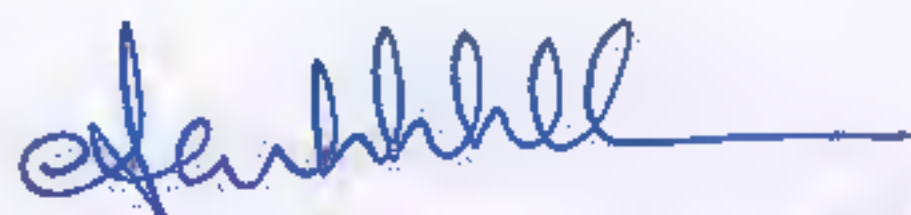

This collaborative research work has begun in September 2020 and may go up to September 2026.

Dear Sir,

This is to certify that Thirty Three (33 Nos. as list enclosed) students referred by your esteemed institution have participated in "Free Training Programme" at Vaniyambadi Operator Training Centre (OTC) of FDDI in month February- March 2018 Training batch. During the period of training the students showed keen interest and actively participated in the training programme. They learnt various techniques of shoe cutting, shoe stitching and shoe attaching etc. during this training programme.

We appreciate the efforts and initiatives taken by the College in deputing the students to undergo this programme. We expect your kind co-operation in future also.

Thanking you.

Good evening

you are permitted to attend the Inplant training from 03 september 2018 to 07 th september 2018. please find attachment below.

INPLANT TRAINING

Duration: 1 Week Monday to Saturday (Second Saturday holiday)

Eligibility: Students pursuing **PG** in the recognized (Regular) colleges

Fees: Rs. 1000/- (Rupees one thousand only - non-refundable)

The students have to arrange their own accommodation.

Students bonafide certificate to be submitted at the time of joining.

A duly signed letter by Department HOD/Principal mentioning the Student details along with the date of training to be sent by post.

For more details please contact the following phone number /email.

Phone No. 0423-2234602

Sir,

I hereby acknowledge that 24 students of your esteemed institution enrolled in E-Commerce and Footwear Technology course visited our company on 13th December, 2018 along with two faculty members. They visited various departments of our company and had keenly observed shoe manufacturing process. During their visit, the students enthusiastically interacted with our staff and their behaviour and conduct was good.

Thanking You
